▶ **More than just education, this initiative involves Law Department Participants in a collaborative effort to:**

- ▶ Avoid Reinventing the Litigation Management Wheel
- ▶ Take Advantage of Strategies & Tools Already Working for Others
- ▶ Achieve Better Results and Control Litigation Costs

▶ **Best Practices, Case Studies and Interactive Discussions**

Importantly, the Managing Litigation program focuses on improving in-house legal team knowledge and skills. Prior to attending kickoff events, registrants are asked to assess their teams' competencies against Key Elements involved in managing corporate risk, disputes and litigation in a businesslike manner. These self-evaluations drive discussion among in-house counsel attendees in small group breakout sessions and provide a foundation for planned law department improvement. Seasoned in-house litigation managers, law firm trial counsel and legal supplier representatives facilitate interactive dialogue during the day.
