

## **Government Relations Practice**

Fennemore Craig has helped develop and define laws shaping our region for more than a century. We serve clients at all levels of state, county and municipal government in Arizona, as well as numerous federal agencies. We also work closely with the Arizona Congressional Delegation on behalf of clients on issues before Congress.

Today, an effective Government Relations practice must also possess strategic planning and tactical implementation skills. At Fennemore Craig we help clients determine what outcomes are in their best interest and then build and implement a plan to achieve those outcomes. Our goal is to find and deliver the best solutions for our client.

Fennemore Craig is a member of the State Capital Law Firm Group, an organization comprised of top government relations professionals in all fifty states, selected on a one firm per state basis.
